Dear Sir

Re: Salesperson Vess Rusev

We recently placed our home on the market with another Real Estate Company in the area, and through us viewing properties to purchase we came in contact with Vess.

Moving forward from this point Vess kept in contact with us regarding the sale of our home, text us useful websites with property updates and generally offered his service.

We found Vess to be really professional, friendly and courteous. We were impressed with his level of service and professionalism.

We would like to thank Vess for his assistance and wish him all the very best with his property sales in the future.

Yours sincerely

Joy Burger
